SALES

If you would like to sell your piece(s) and receive payment please provide a Paypal ID (preferred method) or the name your check should be made payable to. There is a 30% commission on any gallery sales. The artist's payments will be sent out 30 days following the closing with preference given to those with Paypal accounts since they are the easiest. Please make sure your payment information is legible. Last year some payments were delayed because Jason could not read their handwriting.

Donations

Vinyl Killers remains a grassroots show and receives **NO** corporate funding or sponsorship in spite of getting numerous offers. The sales commissions do not even come close to justifying the time spent coordinating and promoting the shows year round. Everyone involved in VK does it purely out of love for the show.

If you have benefited from VK's efforts and/or are down with what we are doing then please consider donating the proceeds from one of your records sale to Vinyl Killers. Your donation will go directly back into keeping everything afloat and promoting VK for more exposure.

AFTER THE SHOW

You have two options:

1. You can have any unsold pieces remain on Goodfoot online store. With the past show's the online store has sold as well as the shows and the site gets a TON of traffic following the shows. However, taking the photographs, building the store inventory, packaging, and shipping all require much more time and expense than the show, so web sales will be at a 40% commission. This is not a scam to cash in and I hope everything sells at the show.

Also, ***please be aware that if your piece does not sell within one year from the show closing it becomes property of Vinyl Killers.***

2. If you would like your artwork returned to you, please include a self-addressed, stamped envelope (SASE) **with the correct amount of return postage included**. This means the same size as the original package. Once the show comes down any unsold work will be mailed back in your SASE envelope.
